

**ACCOMPLISHMENT REPORTING TO THE PUBLIC**

The School Committee accepts its responsibility to lead in the identification and development of broad goals and specific objectives to be accomplished by the School Department and to make realistic adjustments in these targets after the adoption of the actual operating budget. In return, the School Committee will expect the Superintendent to employ all appropriate means to provide for continuous and candid reports of the accomplishment by staff in the pursuit of these goals and objectives for which reliable measurement indicators have been established.

The purpose of these accomplishment reports will be to provide the School Committee with information needed for making on-going policy and planning decisions and to keep the public informed about school needs and about actual results being obtained from the public's support of school programs.

Accomplishment reports should be clearly written and supported as necessary by graphics in order that the significance of all information may be easily understood by lay citizens. These reports should also be accompanied by any administrative recommendations for School Committee consideration and action.
